

SMOKE SENSOR

with controllable Siren V 1.2

Product Code: 701486

- 2-in-1 smoke sensor with controllable indoor siren
- Detects smoke and fire
- Independent use without Smart Home Gateway possible
- Easy installation
- Automatic self-calibration and self-test
- Additional use as independent indoor siren (e.g. burglary or water alarm)
- Power Supply: Mains power (with optional available mains adapter) or battery
- Automatic meshing between all POPP smoke sensors (POPE004001 & POPE701486) in one Z-Wave network possible

Smoke detectors can save lives. The POPP Smoke Sensor with controllable Siren Version 1.2 reliably detects developing fires and smoke. In case of an emergency, it alarms acoustically and sends the alarm signal to all other POPP smoke detectors in range.

SMART HOME BY POPP

-  Heating and Climate Control
-  Security Systems
-  Lighting Control
-  Alarm Systems
-  Remote Controls
-  Control Center/ Gateway
-  Sensors
-  Device Control/ Plugs
-  Window and Blind Control

POPP Smart Home products make your home intelligent. Monitor and control your house or flat with your tablet, smartphone, PC or remote control (Z-Wave capable gateway required). Activate the heating while you are driving home, close windows automatically when the weather changes and be informed when sensors trigger an alarm.

POPP relies on Z-Wave wireless technology for its Smart Home products. Z-Wave is the leading international standard for wireless communication between intelligent devices in homes and offices, and thus the basis for efficient home automation.

POPP smart home products are compatible and interoperable with Z-Wave certified devices from more than 300 manufacturers worldwide.
