

SMART THERMOSTATIC VALVE

Intelligent and convenient heating control

Product Code: 010101

- Temperature control via remote control or automations
- Local button control
- Available heating modus frost protection
- LCD Display
- Integrated sensor sends local measured temperature
- Detects open windows and switches off automatically
- Valve training function
- Suitable for the most standard valves

The POPP Smart Thermostatic Valve makes your home even cosier. Thanks to Z-Wave you can adjust your desired temperature comfortable and easy via wireless switch, heating plan, automation scene or from outside via smartphone (Z-Wave gateway required). Alternatively, you can still control the thermostat traditionally using local buttons.

SMART HOME BY POPP

-  Heating and Climate Control
-  Security Systems
-  Lighting Control
-  Alarm Systems
-  Remote Controls
-  Control Center/ Gateway
-  Sensors
-  Device Control/ Plugs
-  Window and Blind Control

POPP Smart Home products make your home intelligent. Monitor and control your house or flat with your tablet, smartphone, PC or remote control (Z-Wave capable gateway required). Activate the heating while you are driving home, close windows automatically when the weather changes and be informed when sensors trigger an alarm.

POPP relies on Z-Wave wireless technology for its Smart Home products. Z-Wave is the leading international standard for wireless communication between intelligent devices in homes and offices, and thus the basis for efficient home automation.

POPP smart home products are compatible and interoperable with Z-Wave certified devices from more than 300 manufacturers worldwide.
